

*American Model United Nations*

## **Historical Security Council**

*The United Nations Security Council would like to express its concern with the recent military actions in the border area between Israel and Lebanon endangering UNIFIL peacekeeping personnel. We support a peaceful resolution to this conflict through cooperation from both sides. We ask all concerned parties to respect the neutrality of peacekeeping personnel and we condemn actions which endanger UNIFIL operations and inflame tensions in the area. We continue to hope for a diplomatic solution to the conflicts in the region.*
