General Assembly Second Committee

GA 2nd/II/5

SUBJECT OF RESOLUTION: Protection of Global Climate for Present and Future Generations of Humankind

SUBMITTED TO: The General Assembly Second Committee

SUBMITTED BY: Argentina, Azerbaijan, Bosnia-Herzegovina, Cameroon, Colombia, Democratic Peoples Republic of Korea, France, Haiti, Honduras, Indonesia, Iran, Islamic Republic of, Jamaica, Libyan Arab Jamahiriya, Namibia, Slovenia, Sri Lanka, Suriname, Syrian Arab Republic, Uganda, United Arab Emirates

The General Assembly Second Committee,

- 1 *Recognizing* the need for protection of the environment for the preservation of future
- 2 generations,
- 3
- 4 *Understanding* that the actions of mankind have a direct impact on the global
- 5 environment,
- 6
- 7 *Noting* that all states are entitled to their respective sovereignty,
- 8
- 9 *Affirming* that a single economic policy is not a viable option in an international
- 10 community but that a global effort to spur growth is vital to international economic
- 11 success,
- 12
- 13 *Recalling* the body's sustained effort to reach the Millennium Development Goals,
- 14
- 15 1. *Calls* upon member states to continue current initiatives and increase investment for
- 16 the development of green infrastructure;
- 17
- 18 2. *Encourages* a system of foreign direct investment that will input capital into the
- 19 green technology economies:
- 20 (a) specifies that this system will have a consultative framework that will account
- 21 for variations in respective countries' economies;
- 22 (b) further specifies that the framework will focus on efficiency of green projects
- 23 to secure high returns on investment for developed countries investing in green
- 24 technologies;
- 25

26 3. *Recommends* that green technology initiatives be developed on a country-by-
27 country basis to best serve each country's needs:
28 (a) initiatives may be developed by a consultative think tank encouraging national
29 plans of action comprised of economic specialists, regional representatives, and
30 country representatives;
31 (b) member states shall remain the final arbiter in their negotiations and
32 implementation of the proposed initiatives;
33 (c) country representatives will work holistically with economic and regional
34 representatives to address a variety of initiatives and concerns that could include:
35 (i) disaster relief and prevention technologies;
36 (ii) island preservation;
37 (iii) deforestation;
38 (iv) intellectual property rights;
39 (v) solar initiatives;
40 (vi) water technologies ;
41 (vii) environmental education;
42 (viii) civilian nuclear power technologies;
43 (ix) green reconstruction of war torn states;
44 (x) health Technologies;
45 (xi) hydroelectric energy;
46 (xii) others to be added as needed.
