

American Model United Nations
Security Council

SC/3

SUBJECT OF RESOLUTION: The Situation in Iran
SUBMITTED TO: The Security Council
SUBMITTED BY: China, United States, Austria, Turkey, Brazil, Japan,
United Kingdom

The Security Council

- 1
2 *Recalling* its resolutions 1696 (2006), 1737 (2006), 1747 (2007), 1803 (2008), 1835
3 (2008), 1887 (2008), and 1929 (2010) and reaffirming their provisions,
4
5 *Reaffirming* its commitment to the tenets of the Treaty on the Non-Proliferation of
6 Nuclear Weapons,
7
8 *Further reaffirming* the right of all signatories of the NPT to pursue the peaceful use of
9 nuclear energy in accordance with Articles I and II of that treaty,
10
11 *Noting with appreciation* the efforts of Brazil and Turkey to pursue a nuclear fuel-swap
12 program aimed at alleviating concerns about the possible enrichment of uranium by Iran
13 for aggressive purposes,
14
15 *Approving* of the French Fuel Exchange Program and its possible application to the
16 situation in Iran,
17
18 *Acting* under Article VII of the UN Charter,
19
20 1. *Requires* Iran to fully cooperate with the International Atomic Energy Agency
21 (IAEA) and allow all inspections required by the Treaty on the Non-Proliferation of
22 Nuclear Weapons (NPT), in order to provide transparency and appropriate assurances
23 regarding the peaceful nature of Iran's nuclear energy program;
24
25 2. *Encourages* Iran to adopt the additional protocol 3.1 to the NPT;
26
27 3. *Recommends* that Iran immediately allow an independent, neutral, third party to
28 inspect its nuclear facilities to ensure they are fully compliant with international safety
29 standards as a sign of good faith during negotiations;
30
31 4. *Suggests* that Brazil and Turkey be strongly considered as the third party

32 inspectors given their commitment to safe nuclear practices;

33

34 5. *Urges* Iran, the nations of the Vienna Group, and the five permanent Security
35 Council members plus Germany (P5+1) to resume discussions on a nuclear fuel-swap
36 program similar to the one presented in the Tehran Declaration;

37

38 6. *Requests* that Iran develop and submit to the Security Council a plan and
39 timetable in order to allow random, verifiable inspections of all nuclear sites by a third
40 party within 6 months of this adoption of this resolution and reminds Iran of the authority
41 of the Security Council under Article 41 to impose additional sanctions should they refuse
42 to engage with the international community;

43

44 7. *Emphasizes* that Iran's failure to disclose any and all nuclear reactor sites and
45 facilities to an agreed-upon third party is grounds for cessation of talks regarding a fuel-
46 swap program, and grounds for future sanctions;

47

48 8. *Expresses* the intention of the Security Council to gradually ease sanctions
49 against Iran should a comprehensive agreement be reached within the framework
50 established above;

51

52 9. *Further expresses* the will of the Security Council to immediately cease
53 negotiations with Iran over the suggested fuel-swap programs should they fail to provide
54 a good faith, viable plan for verification of the peaceful intentions of their program within
55 the designated timeframe;

56

57 10. *Decides* to remain actively seized of the matter.

Passed by consensus, with 1 abstentions
