

American Model United Nations

General Assembly Second Committee

GA 2nd/II/1

SUBJECT OF RESOLUTION: Promotion of New and Renewable Sources of Energy

SUBMITTED TO: The General Assembly Second Committee

The General Assembly Second Committee,

1 *Deeply Disturbed* by the lack of infrastructure to promote renewable resources,

2

3 *Realizing* that it is unrealistic to fully break away from traditional bio-fuels as an
4 energy source and that a slow transition is necessary,

5

6 *Observing* the potential for economic growth with the promotion of new energy
7 sources,

8

9 *Affirming* the Rio Declaration of Environment and Development of 1992,

10

11 *Reaffirming* the Kyoto Protocol and Millennium Development Goal 7 on sustainable
12 development,

13

14 *Emphasizing* the goals of sustainable development of technology share and
15 investment in the Johannesburg Plan of Implementation Article III,

16

17 1. *Calls upon* the world's nations to create the New and Renewable Energy
18 Investment Commission as a separate IGO for the distribution and regulation of new and
19 renewable energy technology and funding in the form of specified projects with
20 guidelines to be formed with respect paid to state sovereignty;

21

22 2. *Recommends* the New and Renewable Energy Investment Commission to work
23 closely with the UN Framework Convention on Climate Change;

24

25 3. *Urges* that member states, NGOs, MNCs, and development banks support the
26 continuation of the the Commission through funding, statements, and policy for review
27 by the fifth committee;

28

29 4. *Expresses* hope for a culture of openness among member states in the sharing of
30 successful technologies;

31

32 5. *Encourages* investing into education of developing states by the Commission in
33 order to promote individual state development into New and Renewable Energy
34 Infrastructure including:

35

a.) Construction of New and Renewable Energy facilities;

- 36 b.) Education of the current and future working classes of developing states on
37 using New and Renewable Energy;
38 c.) Expansion of infrastructure to efficiently facilitate renewable energy development
39 into rural, and underdeveloped areas;
40
41 6. *Encourages* the use of minimal emission energy sources;
42
43 7. *Further invites* improvement upon the capacity to prepare, appraise, and finance
44 New and Renewable Energy projects.
