

*American Model United Nations*  
**General Assembly Fourth Committee**

GA Fourth/I/8

SUBJECT OF RESOLUTION: International cooperation in the peaceful uses of  
outer space

SUBMITTED TO: The General Assembly Fourth Committee

*The General Assembly Fourth Committee,*

1 Recognizing the immense costs and unsustainability of conventional rocket-based  
2 transportation to space,

3  
4 Affirming the applicability of the United Nations Millennium Goals which  
5 promote cooperation between developed and less developed nations with regard to the  
6 peaceful uses and accessibility of space,

7  
8 Emphasizing the importance of recent technological advances in the field of  
9 advanced synthetic materials that allows for new and innovative solutions to the problems  
10 of conventional rocket-based transportation,

11  
12 1. *Calls upon* the member states of this body to strongly consider investing in a  
13 permanent, long-term solution to the unsustainable rocket-based technologies currently  
14 relied upon to reach outer space;

15  
16 2. *Welcomes* the international cooperation that will emerge through the  
17 construction, maintenance and use of an international space elevator;

18  
19 3. *Recognizes* the many financial benefits of an international space elevator, as  
20 well as the numerous advancements in technology that have made such a project no  
21 longer a concept, but a real possibility.
