

American Model United Nations
Historical Security Council – 1994

HSC-1994/2

SUBJECT OF RESOLUTION: Situation in Bosnia-Herzegovina

SUBMITTED TO: The Historical Security Council – 1994

The Historical Security Council – 1994,

1 *Reaffirming* Security Council Resolution 743 of 21 February 1992, establishing the United Nations
2 Protection Force (UNPROFOR) to dissuade intercommunal violence,

3 *Determining* that the situation in the former Yugoslavia region continues to constitute a threat
4 to international peace and security,

5 *Concerned with* continued military action in the Security Council-designated safe zones,

6 *Acknowledging*, as the UNPROFOR Commander has stated, the overrun nature of the estab-
7 lished safe zones,

8 *Deeply concerned* with the disruption to humanitarian aid caused by conflict in the region,

9 *Further concerned* with the interdiction of UNPROFOR personnel in both humanitarian relief mis-
10 sions and observation missions,

11 *Recognizing* that sending more humanitarian aid without further mediation only superficially
12 addresses the problem at hand and not the root of the issue,

13 1. *Condemns* any action by any active faction involved in the Bosnian dispute that prevents or
14 inhibits the delivery of humanitarian aid to allocated areas;

15 2. *Emphasizes* the necessity for humanitarian aid and the guarantee of its delivery to areas in
16 need, specifically in the capital of Sarajevo;

17 3. *Calls upon* member states to provide humanitarian assistance to the greatest of their finan-
18 cial and logistical ability;

19 4. *Strongly recommends* a minimum presence of 18,000 peacekeeping troops in the Sarajevo
20 region to meet the "safe operating minimum" recommended by the UNPROFOR Command;

21 5. *Extends* UNPROFOR mandate to 31 December 1994;

22 6. *Approves* the request from the UNPROFOR Commander for:

23 (a) An increased number of cargo and transport planes for the explicit purpose of hu-
24 manitarian assistance, defined as "The distribution of water, food, medical supplies and the facilitation
25 of medical evacuations in light of increasing civilian injuries and casualties;;

26 (b) An increase in the provision of lightly armed armored vehicles to ensure the protec-
27 tion of designated safe zones;

28 (c) An increase in small arms, specifically for use by UNPROFOR peacekeepers, to ensure
29 the protection of safe zones and the delivery of humanitarian aid;

30 7. *Reaffirms*, as is outlined in the United Nations Peacekeeping Operations Principles and Guide-
31 lines, the situations in which UNPROFOR may need to use force to execute its mandates as:

32 (a) The disruption in the process of humanitarian aid provision;

33 (b) The imminent threat of physical attack on civilians within designated safe zones;

34 (c) The enforcement of the current neutral zones established by Resolutions 819 and 824;

35 8. *Calls upon* Member States to contribute monetary aid, as able, to rebuild airport infrastruc-
36 ture in Bosnia.
