

American Model United Nations
Commission on the Status of Women

CSW/I/3

SUBJECT OF RESOLUTION: Women, the girl child and HIV and AIDS

SUBMITTED TO: The Commission on the Status of Women

The Commission on the Status of Women,

1 *Noting with approval* the international community's efforts to fight AIDS through the Beijing Declaration
2 and Platform for Action and the current 2030 Sustainable Goal of eradicating AIDS, ,

3 *Bearing in mind* the economic inequalities that prevent developing nations from being able to decrease and
4 maintain low levels of HIV transmission rates,

5 *Reaffirming* the importance of sovereignty,

6 *Acknowledging* that the spread of HIV/AIDS is caused not only by a lack of sexual education and contra-
7 ceptives but also by medical malpractice in sanitation and the lack of resources provided for education,

8 *Emphasizing* the goal of the Commission to protect women and children from the spread of HIV and AIDS,

9 *Expecting* to find a vaccine for HIV and AIDS by 2030 through this comprehensive resolution,

10 *Expressing appreciation* of states collectively volunteering to donate resources as a international collective
11 whole in order to prevent and eradicate HIV and AIDS,

12 1. *Recommends* that economically prosperous states, defined by the World Bank as states with a state
13 with a gross national income per capita of \$12,696, contribute to global funds dedicated to eradicating AIDS/HIV,
14 specifically those that fund research towards a cure or vaccine by the year of 2030;

15 2. *Strongly encourages* the implementation of requiring HIV/AIDS research to be public after a five year
16 period of time to create an inclusive research database;

17 3. *Urges* states to utilize the The Global Fund to Fight AIDS, Tuberculosis and Malaria to implement
18 practices and/or education in an effective and direct manner that resonates with the nation's values, beliefs, and
19 laws;

20 4. *Advocates* states with cohesive and highly funded medical education programs to accept more international
21 medical students on a grant basis;

22 5. *Recommends* to allocate majority of funds to research and then to subsidize condoms and medical
23 sanitation products for Member States that apply to resources from The Global Fund to Fight AIDS, Tuberculosis
24 and Malaria;

25 6. *Proposes* The Global Fund to Fight AIDS, Tuberculosis and Malaria and the World Health Organization
26 to automatically consider Member States with a twenty percent or higher rate of prevalence of HIV and AIDS for
27 funding and resources;

28 7. *Requests* that Member States with cohesive and highly funded medical education programs increase the
29 percentage of international medical students on a grant basis by 10 percent.

Passed by consensus, with 0 abstentions
