SUBJECT OF RESOLUTION: Situation in Afghanistan

SUBMITTED TO: The Security Council

The Security Council,

Recognizing the recent report from the Special Representative for Afghanistan to the Security Council,

Highlighting the good will of parties in the region to protect UN Missions to help the civilians of Afghanistan,

Recognizing that Afghanistan is on the brink of a starvation crisis with 22.8 million people facing acute food insecurity this winter,

Noting with regret the impacts that the recent COVID-19 pandemic has had on the people of Afghanistan in addition to the hunger crisis,

1. Encourages the international community to raise funds to increase the UNAMA’s capability to distribute aid to the people of Afghanistan, allowing for:
   (a) Increased distribution sites in rural areas;
   (b) Increased food and water to the region;
   (c) Increased medical aid to the civilian population;
   (d) Increased accessibility to housing;

2. Calls upon the international community to contribute to COVID-19 Vaccines Global Access (COVAX), allowing the program to:
   (a) Increase distribution sites of the COVID-19 vaccine;
   (b) Increase the amount of COVID-19 vaccinations available at these sights;

3. Expands the aid mission in Afghanistan to help secure distribution sites alongside coordinated domestic assistance in the distribution of developmental and humanitarian aid:
   (a) Extends UNAMA an additional six months until September 17th of 2022;
   (b) Acknowledges that all further communications between the parties involved will be through the existing Special Envoy on behalf of the United Nations;
   (c) Directs UNAMA to conduct further cooperation and communication with the current parties involved in the region;

4. Further requests funding from the global community to increase the assistance mission on the ground in order to make possible the changes outlined in operative clauses 1, 2, and 3;

5. Decides to remain actively seized on the matter.
