Virtual Platform Information - Gatherly

Greetings from the AMUN Secretariat. Please review the following communication for important information about the Virtual Committee.

Online Platform: Gatherly

This year the virtual committee will be hosted on [Gatherly](#). Gatherly has been used as our online platform for two years with great response from Representatives over other virtual platforms commonly used for online conferencing. Gatherly allows participants to have an avatar that they can move around in a virtual floor.

By moving their avatar over another person's avatar, a video call (or known in Gatherly as a “huddle”) is created. This simulates the “caucusing” experience commonly found at Model UN conferences. You can learn more about Gatherly on [their website](#).

Try out Gatherly with your Class or Club

Gatherly has a built-in test area that will allow you and your classmates to enter a sample version of the software to test your technology setup and spend a few minutes getting acquainted with the tool. You can find this test area at try.gatherly.io.

The [technical specifications](#) of Gatherly recommend using the Chrome or Firefox browsers without

any browser extensions. A microphone, headset and video camera are also recommended for the best experience. You can verify your computer and network connection at check.gatherly.io.

Closer to the start of the conference, your school will receive a conference-specific link to gain access to the 2022 AMUN Virtual Conference sessions.
